EXPERIENCE

Web Development Intern *Aug 2026 – Present*
Employment Express Verband LLP

- Contributed to building **Mylat**, a new company product from the ground up, focusing on frontend development and UI implementation.
- Developed a **responsive landing page for Annadhara Nepal's flood-relief campaign**, creating a campaign-focused web experience.
- Developed and integrated a **blog page for AtRisk AI**, supporting content publishing and improving website content organization.
- Redesigned the **Anitech website UI**, improving page layouts, navigation, visual consistency, and responsive behavior across devices.
- Conducted **technical and on-page SEO audits for AtRisk AI** using Screaming Frog, identifying issues related to metadata, broken links, redirects, indexing, and site structure.
- Audited website usability, accessibility, and frontend quality, implementing fixes to improve responsiveness and user experience.

TECHNICAL SKILLS

Frontend: React.js, HTML5, CSS3, Tailwind CSS, JavaScript (ES6+),SQL
Backend: Node.js, Express.js, REST APIs
Database: MongoDB,Redis
SEO & Audit: Technical SEO, On-Page SEO, Website Auditing, Screaming Frog
Programming: C, C++
Tools: Git, GitHub, Vercel

PROJECTS

ForgeFlow – AI LinkedIn Content Automation Platform Live Demo
Tech Stack: *React.js, Tailwind CSS, Node.js, Express.js, MongoDB, BullMQ, Redis, LinkedIn API*

- Built a **full-stack LinkedIn content automation platform** for creating, managing, scheduling, and publishing posts from a centralized workspace.
- Integrated **AI-powered content generation** with customizable audience, tone, creativity, length, and hashtag preferences.
- Implemented **JWT authentication and LinkedIn OAuth 2.0** with protected routes, access token management, and secure authorization.
- Developed a **BullMQ + Redis background job system** for scheduled and asynchronous LinkedIn publishing, with MongoDB for post and account management.

QuickBite – Food Ordering Web App Live Demo
Tech Stack: *React.js, JavaScript, CSS*

- Built a **responsive food ordering application** using React with a modular, component-based architecture.
- Implemented **dynamic product listings and cart functionality** using React hooks for state management.
- Optimized component rendering using React hooks and developed a responsive UI for mobile, tablet, and desktop.

Convox – Real-Time Chat Platform Live Demo
Tech Stack: *React.js, Socket.IO, Node.js, Express.js*

- Built a **real-time chat application** with instant messaging, typing indicators, and user presence using Socket.IO.
- Developed a **responsive chat interface** using React.js with efficient state management and smooth UI interactions.

EDUCATION

B.Tech in Computer Science & Engineering **2023 – Present**
IMS Engineering College, Ghaziabad

CERTIFICATIONS

- **Namaste React Certification** – Comprehensive training in React.js, including hooks, component architecture, and performance optimization. View Certificate
- **AI-ML Virtual Internship Certification (Google & AICTE)** and **IBM AI Certification** – Covered foundational concepts in artificial intelligence and machine learning with practical applications. View Certificate
